## 14 ARE OUT FOR THE 6 VACANCIES

### Two Latest Aldermanic Candidates to Announce Themselves Are Ald. Gariepy and C. E. Potter

One week remains before the civic nomination for the civic elections to be held on December 14th. At the present time there are fourteen candidates in the field for the six aldermanic chairs to become vacant, and it is probable that the next seven days will bring out a number of other aspirants.

It now appears about settled that the mayoralty fight will be confined to Ald. Bellamy and Lee, and bot hare putting up an energetic campaign and are using every possible advantage.

All the retiring aldermen of the council of 1907 are again offering for re-election. Alds. Fraser, McInnis and Anderson have already signified their intention and today Ald. Gariepy has definitely announced that he too will seek re-election. The retiring members are appealing to the electorate upon their record of the past year.

The latest citizen to enter the contest is C. E. Potter, of the firm of Potter & McDougall. Mr. Potter is a fourteen-year-old resident of Edmonton and previously held a position on the Moose Jaw council with the largest vote for two successive years. The main plank of his platform is his favoring a union railway station for all the lines coming into Edmonton and the removal of the different railway yards to the northern end of the city.

Other candidates in the field are John Galbraith, J. E. Lundy, W. H. Clegg, A. B. Agar, Alex. McSporran, J. H. Millar, F. B. Ball, John Francis and J. H. McKinley.

### ASHBURTON TREATY RECALLED.

### Canadian Geographer Says Canada Did Not Suffer Loss of Territory.

Ottawa, Nov. 29.—Jas. White, Dominion geographer, in the course of an address on the boundaries of the Dominion before the Canadian Club advanced the view that Canada had not been so badly treated as many people are inclined to believe in respect to boundary negotiations with the United States. He gave an historical outline of the negotiations which resulted n the framing of the Ashburton treaty, and declared that all things considered, Lord Ashburton did as well as could be reasonably expected. The principle of effective occupation was the guiding principle in the settlement of the Oregon dispute. In the territory awarded to Great Britain the majority of the people were British subjects.

It was fortunate for Canada, Mr. White said, that the boundary line between British Columbia and Oregon was settled eleven years before the discovery of gold in that province. There was such a rush of American miners across the border at that time that had not the boundary dispute been settled a large part of Southern British Columbia might have eventually gone to the United States.

## EXPLOSION AT GAS PRODUCER PLANT

### Machine Put Out of Business For Several Days—Street Cars Tied Up.

An explosion of gas at the new producer gas plant yesterday morning about nine o'clock happily did not result in anything more serious than the disabling of the new plant for several days. One of the employees who was working near the new engine was stunned by the force of the explosion, but soon recovered and was found to be uninjured.

The accident occurred near the small thirty-horse power engine used to furnish a draught. The workmen were engaged in clearing out the brushes used for purifying the gas when some of it got into the fan with the resulting explosion and its temporary disablement.

An order was immediately telegraphed to Milwaukee for a new piece to replace the disabled part. In the meantime the erecting engineer is patching up the machinery and expects to have the plant in operation again tomorrow forenoon.

Today all the machinery in the city using electric power is dependent upon the old steam engine which is furnishing power for water pumping, for electric motors and for street and house lighting. As a consequence of the shortage of power the street car will be unable to run from four till half past six, when the store lights go off, till the new plant is running again.

**Tied Street Cars up.**

The rain of early Sunday morning, with the rapid drop in temperature and snow storm yesterday completely tied up the street car line and today much of the ice on the rails has to be removed with picks. All the forenoon the street car men were engaged in clearing off Namayo avenue and by noon had got a block or two along Jasper. The cars did not start running to Strathcona as anticipated and may not be able to make this trip till the new plant is repaired.

**Permission for Railway Commission.**

On Saturday evening City Solicitor Bown received a wire from the city's solicitors in Ottawa, that the railway commission had granted permission to cross the Saskatchewan bridge. This removes the last legal obstruction to the interurban service as far as the C. P. R. railway station.

**C.P.R. Is Obsinate.**

Last week Mayor McDougall wired John Niblock, western superintendant of the C. P. R., Calgary, and Vice-President Whyte, Winnipeg, that the city intended putting in the diamond at the C. P. R. crossing at Strathcona, on Tuesday next and requesting that an engineer of the railway be present. The railway had previously granted vebal permission to do this work and a wire had been received saying that the railway commission had agreed to the crossing. The C. P. R. officials however wired as follows:

"Your message received. We have not yet received the order of the commission but it is now on the way. We cannot consent to crossing until I see its terms with respect to protection to be provided. Will communicate with you on receipt of order.

W. WHYTE.

Your wire of the 25th to hand. Very much regret cannot permit crossing our track at Strathcona until same is authorized by Board of Railway Commissioners.

J. NIBLOCK.

The Strathcona people have been pressing hard to have this diamond placed in position, but the city have been unable to accede to their requests. The street railway management is also much annoyed as it will cost a great deal more to place the diamond now than it did several weeks ago.

The philanthropist for several weeks has been visiting colleges in the west which he has endowed.

### Received in Private Audience.

London, Nov. 29—A correspondent at Rome wires that the pope received in private audience here Hon. Sydney Fisher, Canadian minister of agriculture, who was presented by Mgr. Comment has been caused by the fact that Mr. Fisher, after asking for a private audience from King Victor Emmanuel, waited on the pope before being received by his majesty. This is contrary to usage owing to the relations with the Vatican.

## NATIONS OF WORLD ENDORSE ALLIANCE

### U.S.-Japanese Agreement Covering Control of Pacific is Received With Pleasure by Germany and France. No Ulterior Motive Behind Arrangement.

Washington, Nov. 29.—It is believed that all nations of Europe will cordially support the alliance formed between Japan and the United States. Expressions of pleasure and sympathy with the ends sought already have been received from at least two nations. That the treaty should receive the unanimous endorsement of every progressive nation, was the sentiment expressed to day, because the motives behind it are declared to be the best and make for the good of all countries. Its influence in maintaining the status quo on the Pacific and the independence of China is pointed out to be of the highest importance, which makes the agreement equal to any in the later pages of the world's history.

**Expected Arrangement.**

Berlin, Nov. 29.—The report of the understanding between the United States and Japan, guaranteeing the integrity of China and providing for the maintenance of the status quo in the Pacific did not come as a surprise to official circles in Berlin, but otherwise no one had been led to suspect the existence of any such understanding. Officially it was greeted with the greatest satisfaction as likely to dispose of all reason for conflict in the Pacific.

**France Is Satisfied.**

Paris, Nov. 29.—The terms of the American Japanese agreement regarding the integrity of China, etc., is received with satisfaction in governmental circles, not only because the treaty is thought to remove all danger of a Japanese-American conflict by establishing the basis of harmonious action in the Pacific, but because it is regarded as the crowning act necessary for the preservation of status quo in the far east, the integrity of China and the open door for international trade there. Its objects are entirely in accord with the policies of France and follow the lines of the Franco-Japanese entente of last year.

**Even Russia Is Pleased.**

St. Petersburg, Nov. 30.—The American-Japanese agreement meets only expressions and evidences of favor in official circles here. Russia feels that under the arrangement America's powerful influence will be exerted to preserve every legitimate interest in the Pacific and that a saultary restraining influence will be felt by Japan. There is a striking absence of jealousy evidenced here. The feeling appears to be that of relief and shared responsibility.

**Britain Advised Before Hand.**

London, Nov. 30.—No less sincere than the gratification reported from St. Petersburg at the American-Japanese agreement is that in official and public circles here. It is understood that the British Government was advised in advance of what was in prospect. The agreement is verified as putting an end to the danger of the situation between United States and Japan, involving delicate considerations for the British Government, and is interesting because of its being a new departure in the policy of the United States with regard to foreign entanglements. The London press reflects the general feeling of gratification here.

### U. S. POST OFFICE DEFICIT.

### Exceeds Sixteen Million—Like Deficit in 1909 Expected.

Washington, Nov. 29—In his annual report for the fiscal year ended June 30, 1908, made public tonight, Postmaster General Meyer gives the total receipts as $208,351,886, showing a deficit of $16,873,222, the largest in the history of the department with an additional loss from fire, burglary, etc., of $37,056.

The deficit of 1909, it is estimated, will also exceed $16,000,000.

It is suggested that a limited rural parcel post would earn millions of dollars and benefit the farmer. Two cent postage between United States and Great Britain will, it is stated, bring about greater postal receipts and enable American manufacturers to increase their sales in the United Kingdom.

## NORTHERN MAIL IS DESPATCHED

### Hudson's Bay Man Leaves on 2,000 Mile Trip With 953 Pounds of Mail Matter.

This afternoon a trusted employee of the Hudson's Bay Company left the city with the winter's mail for points in the far north. This mail is destined for Fort McPherson, on the Peel River, and intermediate points. The Edmonton man will drive north to Lac le Biche with the mail. It will then be placed in the hands of an experienced northern traveller, who will take it north to Fort Resolution by dog train. From there another man will proceed with the balance of the mail to Fort McPherson. The whole 2,000 mile trip to Fort McPherson will occupy three months.

The mail for these four-trading posts, far beyond the outskirts of civilization, has been collecting at the Edmonton post office for some time. People from all parts of the world who have friends in the north have been sending in letters, newspapers and magazines to catch the winter mail north. Away in the north country, where the days are now very short and the nights long, the furtraders, missionaries and settlers are eagerly awaiting letters from friends and news of the happenings of the outside world. They will give the hardy mail carrier a very hearty welcome when he appears with his bundle of mail, drawn swiftly northward by his tireless huskies.

When the mail was weighed at the local post office this morning it was found that there were 30 pounds of registered mail, 37 pounds of ordinary letters and 886 pounds of newspapers and magazines, making a total of 953 pounds. Postmaster May stated that this was the largest mail ever prepared for the north at one time.

The Hudson's Bay Company contract to carry 300 pounds of mail to Fort Resolution and 300 pounds to Fort McPherson and intermediate points. They will take all the mail for the farthest north points, but will leave part of that destined for Fort Resolution and intermediate points until January 7th, when another mail goes north. Mail from Fort Resolution will be brought back to Edmonton in about two months, but that from Fort McPherson will not reach here for nearly six months.

### SWINDLE EXPRESS COMPANY.

### Express Money Orders Were Obtained in St. Thomas by Forgery.

St. Thomas, Ont., Nov. 30.—A clever swindle was worked on the local officer of the Dominion Express Co., when a stranger, by means of a forgery obtained express money orders valued at $2,500. On the 7th of November a telephone message, which purported to be from Thomas Bros., brush manufacturers, came to the office requesting them to deliver to one of their men a book of money orders. A short time afterwards a man of about thirty years of age called with an order from Thomas Bros., on their stationery, and with their name forged and the book was handed to him. Nothing more was thought of the matter until a few days ago when the orders appeared in Toronto, from the Canada Foundry and Metal Co., but which were repudiated by them.

### THE NEW LABOR GOVERNMENT.

### In Australia Must Stand or Fall Upon Its Own Actions.

Canadian Associated Press.

London, Nov. 28.—Australia's ex-premier, Deakin, today declared that his party and the Labor party were perfectly free from mutual obligations. The new Labor government, he said, would be judged by its actions. Similarly the opposition would be judged by its conduct, if it displayed factious resistance to reasonable proposals on the part of the government. Deakin characterized most of the government's proposals for the nationalization of industry as impracticable and impossible.

## TERRIBLE EXPLOSION IN PENNSYLVANIA MINE

### Between 100 and 200 Miners Killed—Explosion Was of Air—Only One Man Survives—Was Blown 75 Yards—Work of Recovering Bodies Proceeding.

Monogahelia, Pa., Nov. 29.—An explosion in a mine of the Buffalo Jones Coal Company at Marianna, Pa., destroyed two shafts, and in an adjoining mine three hundred men are entombed, with little hope that they can be rescued. The mines are burning fiercely, and smoke is pouring from the mouth of the mine. There is great excitement. The explosion was felt for miles around.

Fifty-six bodies have been taken from the ill-fated Marianna mine, which yesterday collapsed, carrying between 100 and 200 souls into eternity. At least 82 more bodies are still to be recovered. This will make a total of 139 bodies, or 18 more than the mine owners were willing to admit last night. Of 56 bodies, but 14 have been identified. Others may, perhaps, never be identified, so badly were they torn and broken by the awful force. Among those identified was John J. Ivill, jr., nephew of the owner, and John Jones, of the Marianna mine.

Physicians are watching closely tonight the condition of Frank Ellinger, the only man of 139 who came from the mine with his life. He was more dead than alive when brought to the surface and fainted when he heard the shouts of the crowd around the mouth of the pit. He may be in the hospital for months, but will recover.

Ellinger, who is a coal cutter, said: "I was passing through one of the entries about 100 yards from the foot of the shaft when something hit me. I had no time to think. I heard no noise. I must have been blown 75 yards through the passage by the air explosion and the first wave of air must have knocked me unconscious before the noise of the explosion reached me. I do not know what time I came to. It seems like a million years from the time I regained consciousness until I heard them coming for me. I felt, oh, so many bodies and all so cold and stiff they were, as I crawled around through the mine in the dark. I don't know how it was that I escaped, but I am alive."

**Twenty-Eight Identified.**

Marianna, Pa., Nov. 30—At 9.10 this morning seventy-eight of the eighty-three bodies brought to the surface, were identified. The names of the other five may never be known as they are headless. Thirty more bodies, approximately, are in sight. President Jones this morning stated he felt certain the death list exceeds one hundred and thirty.

## EDMONTON LED SMALLER CITIES

### The Big Centres Alone Surpass This City in Building Permits in October.

Building operations for the month of October, as indicated by statistics compiled from the larger cities throughout the Dominion, continue to show very gratifying increases over the same period of 1907.

Of the ten cities, for which comparative figures were supplied Construction, the leading Canadian builders' journal published in Toronto, Ont., only three show decreases, viz: Calgary, Montreal and Regina.

In the case of Calgary, this comparison is hardly a fair criterion of the conditions in that city, in so far as October of 1907 was an abnormally large month, owing to permits having been taken out for some very big work. During October of 1908, forty-four permits were issued for buildings to cost $88,400; during the same month of 1907, forty-nine permits were issued for buildings, the aggregate cost of which was $491,000. For the first ten months of last year, the agggegate cost of buildings for which permits were issued was $1,574,820, so that it may be seen that, while there were only five more permits issued for October of 1907, as compared with 1908, the aggregate cost of the buildings represented about one-third of the value of buildings erected during the first ten months of 1907.

In Montreal, with a decrease of 61.32 per cent, very much the same conditions prevailed, for there were exactly the same number of permits (172) issued during October of 1908 as in 1907. The reason for the decrease is purely due to the fact that permits for two or three very large structures were taken out during the month of October, 1907, which month was an abnormally heavy one, as is demonstrated by the fact that the aggregate cost of buildings during this month was just about one-eleventh of the total cost of buildings erected for the first ten months of 1907.

In the case of Regina, it should be noted that twenty-five permits were issued for the month of October of 1908, as against twenty for the corresponding month of 1907, although there is a decrease in the aggregate value of buildings for which permits were issued of 43.64 per cent.

In the face of these decreases, which can readily be accounted for by the fact that permits were not issued for any large buildings during October of 1908, there are a number of extraordinary increases in several of the cities. Winnipeg leads with an increase of 219.43 per cent; Fort William has an increase of 163.55 per cent; St. John, N. B., 176.50 per cent; Toronto an increase of 31.02 per cent; Edmonton, Vancouver, Victoria and Halifax also show substantial increases, while building in St. Thomas is 50 per cent ahead of what it was for the corresponding period of 1907.

Reports from the various cities show that future prospects for the remainder of the year are exceedingly bright. Winnipeg reports "fair;" Regina, "the outlook for the future is fairly good;" St. John, "fair;" Fort William, "quite bright;" Edmonton, "active, providing we have an open season;" Calgary, "no change for better this season Everything looks bright for next spring;" Vancouver, B. C., "bright, even better than last year at this time;" Montreal, "fairly good;" and Toronto, "exceptionally bright."
FoNov.....?tionaotohzofluvjs;lcfor $

Statistics from Brandon, while not giving figures for the month of October, show that for the first ten months of 1908, 116 permits have been issued for buildings, the aggregate cost of which is $252,149, as compared with 240 permits with an aggregate value of $536,911 for the corresponding period of 1907. The amount given for 1908 does not include the permit to be issued shortly for the proposed $10,000 gas plant.

### C.N.R. TO CALGARY.

There has been considerable speculation among the settlers West of Leduc the past month with regard to a survey party operating in the neighborhood. It is learned after careful enquiry, that the C.N.R. are surveying a line from Strathcona to Calgary, under a charter secured a year ago from the Dominion Government. The line will keep on the east side of Conjuring Creek, and will strike Pigeon Lake about the head. The first survey has been completed, and the surveyors are now working back over the line. The new line will open up a vast tract of country heretofore unexplored by railways, and will be in an immediate advantage to settlers. Under the charter, work will have to be commenced within a year. This line will likely form part of the Brazean extension which will branch off to the west about eight miles southwest of Leduc.

### THE STREET CARS.

The snow storm of yesterday combined with an accident at the power house to the new producer gas plant made it impossible to inaugurate the interurban service today according to the announcement of last week. Superintendent Taylor states that he hopes to have the cars in operation between the two cities by the middle of the week. In connection with the operation between Edmonton and Strathcona the cars will not stop on the C.N.R. right of way across the bridge or on either end on any account. From Strathcona a stop will be made at the top of the hill, again at the Cameron House and then at the top of Currie street. The cars will not stop, however, on the way up or down the hill, on the bridge or at the steps on the Edmonton side, the last two parts of the line being on the Canadian Northern right of way.

**Justice Cassell's Investigation Into Marine Department Opened at Halifax This Morning—Alex. Ferguson Admits to Paying Captain of the Lady Laurier $100 as an Advance For Salvage Work.**

Halifax, N. S., Nov. 30.—A large number of witnesses and spectators were present at this morning's session of the marine enquiry, commencing at 9.30. Many of the witnesses who are business men, turned up with their bookkeepers and books, one firm having almost a carload of bulky journals, ledgers, etc. Alexander Ferguson, of Ferguson & Cox, was sworn, and stated he thought the books of his firm, previous to 1906, had been destroyed. He was asked by Justice Cassels to try to find them.

R. G. Beasley, of Beasley Bros., was recalled. He said his firm was interested in Halifax Salvage Association, doing steam lightering, dredging and general contracting, but comparatively little business with the marine department. He said this firm had been employed to carry departmental goods to light houses when the department's vessels were absent. The witness admitted personal knowledge of a payment of $100 to Capt. Johnson, of the Lady Laurier by his Brother Henry.

The witness and Mr. Watson, the commissioner's counsel, showed signs of warmth over the latter's question remarking the departure of "Brother Henry" for the Eastern shore. Beasley insisted he had left three weeks ago. Mr. Watson wanted to know if it was not last week. Mr. Watson drew from the witness that at the time the Mount Temple was wrecked, he had gone down to her on the Lady Laurier. Asked how much he paid the government for the use of the steamer, he replied:

"Nothing; we had a precedent."

Mr. Watson retorted "Never mind, you can explain afterwards. I want to get a few facts.

Asked if the $100 paid was the result of a bargain the witness said it was not. He said a member of the firm of G. S. Campbell & Co., and of his firm, went to Capt. Johnson, and asked if $100 was for advice, he replied: "Not altogether," and later he stated Capt Johnson got more in connection with the Mount Temple wreck, some $400 altogether. Beasley stated the Salvage Company awarded Capt. Johnson $400 from which Beasley Bros. deducted the $10 paid him. Justice Cassels remarked that the $100 was an advance on $400 and was agreed to among the salvagers to be paid. Capt. Johnson, The witness said this was correct.

During the evidence Beasley mentioned the name of W. S. Davidson, of the G. S. Campbell & Co., and Mr. Watson immediately ordered a subpoena for him.

# FEELING IS STRAINED TO BREAKING POINT

### Austrian-Turkish Embroglio Assumes Serious Aspect.—New Government in Turkey Refuses to Call Off Boycott. Danger of War is Not Over.

Constantinople, Nov. 30.—The Tension between Austria and Turkey is becoming serious. The departure of the Austrian Ambassador, Marquis Pillavicini, will mean a complete ruptpre of negotiations. It is difficult to see how this can be avoided by Turkey while Austria maintains her demand for the suppression of the boycott by the active interference of the Porte.

Under the new regime this is impossible as even if the Government issued orders to that effect, they would not be obeyed. The head of the guilds concerned have told the Grand Vizier that the boycott will be persisted in so long as Austria perserved in her present attitude. Many of the Young Turks suspect that the chief cause of Austria's insistance is to create embarrassment for the new regime.

Sofia, ov. 30.—The danger of war with Turkey is not over, but the Bulgarian Government thinks the country's chances of peaceful independence are increased.

## MARTHA ORTLOFF ACQUITTED.

### Second Trial at Prince Albert of Woman Charged With Infanticide.

Prince Albert, November 29.—Martha Ortloff was acquitted at the second trial on the charge of infanticide. The second jury was out about an hour. The first jury disagreed 3 to 9 in favor of acquittal, after being out six hours.

Dr. Shadd, crown witness, as at the previous trial, refused to tell what the prisoner said when he attended her after the baby was found. Chief Justice Wetmore ruled that the law did not protect doctors and priests as it did lawyers and clients. Confidences between lawyers and clients for material advantage, between priests and parishioners for the benefit of the latter's souls, and between doctors and patients for the benefit of the body. The law protected only lawyers, and in this respect was harsh, but it was the law.

When told that refusal to answer would be a contempt of court, Dr. Shadd stated that he had asked Martha where the child was, but she did not answer and he asked here why she had done it. The prisoner replied that she had put it away because she did not want Mrs. Hill to see it. The evidence against the girl was chiefly circumstantial.

## SWINDLED THE WEALTHY.

### Joseph M. Meyers Worked Among Financiers.

New York, Nov. 29.—Claiming to have the backing of European capitalists to the extent of $200,000,000, according to the story told by the police, Joseph Montefiore Meyers, who has spent the last few months in Pittsburg endeavoring to interest the capitalists of that city in various plans requiring large amount of money, was brought to this city today and charged with the larceny of five bonds valued at $4,500. In connection with the arrest of Meyers, the Pittsburg police have taken into custody John Fitzpatrick and W. Fitzpatrick, recently of New York, who are alleged to have joined Meyers in his operations, by which many wealthy Pittsburgers are said to have lost various sums. Meyers, it was said, claimed acquaintance with many prominent people both in this country and abroad, and he was introduced at the clubs and dined by Pittsburg financiers whom he interested in his various plans.

Meyers was held in $5,000 bail, and not being able to furnish sureties was sent to the Tombs.

## GROAT-McDONALD NUPTIALS.

On Thursday, November 26th, "John O'Groat's House" was the scene of a very pretty wedding, when Mr. George Clare Groat, son of Mr. Malcolm Groat, was united in marriage to Miss Barbara Young McDonald, third daughter of Evan and Sarah Young McDonald, and grand-daughter of the late Wm. Young, 19 Huntly street, Inverness, Scotland.

Shortly after five o'clock the bridal party entered the drawing room to the strains of the Wedding March, played by Miss Gillrie, and took up their position under an arch of evergreens while the ceremony was performed. Over the arch hung a beautiful picture of Bobbie Burns, decorated with a tartan sash. The bride was given away by William Bell, president of the Caledonian Society. The groom was supported by his brother, Mr. Forbes Groat, and the bridesmaid was Miss Nellie Sashe. The ceremony was performed by Rev. Dr. McQueen, in the presence of a large number of friends and relatives.

The bride looked charming in a dress of point de sprit, over white silk, beautifully trimmed with real lace. She wore a bridal veil with a wreath of white heather and orange blossoms and carried a shower bouquet of bridal roses.

The bridesmaid, Miss Nellie Sache, looked charming, dressed in white, trimmed with Valliencennes lace. She carried a boquet of pink roses.

Mrs. Groat, mother of the groom, wore a black silk dress trimmed with black jet.

Mrs. Alex. McDonald wore a white organdie over white silk.

The groom's present to the bride was a handsome set of sable furs; to the bridesmaid, a gold bracelet, and to the groomsman, a meerschaum pipe. Mr. Forbes Groat, groomsman, presented the bride with a gold bracelet set with precious stones. After the ceremony the guests repaired to the dining-room, where a sumptuous wedding dinner was served by H. N. Dodge, caterer. The tables were profusely decorated with pink and cream chrysanthemums and the walls draped with flags and bunting.

At the conclusion of the wedding repast, Rev. Dr. McQueen proposed a toast to the bride, which was responded to by the groom. Rev. Archdeacon H. A. Gray replied to the toast to the bridesmaid. In response to the toast to the host and hostess, Mr. and Mrs. Malcolm Groat, Mayor McDougall referred to another similar gathering at the same place a short time ago, and stated that he had looked forward with great pleasure to this event.

The wedding guests were entertained during the evening by Miss Clara Lander, with some well-known Scottish songs, including the "Hundred Pipers" and "Will ye no come back again." Mr. Henry Wilson also contributed several Scotch songs. During the evening dancing was indulged in, the music being supplied by McCusker's orchestra. An interesting feature of the evening was the old-time dance, directed by Mr. James Gibbons, the well-known old-timer. He was really a host in himself and entertained the company with two comic songs, which were greatly enjoyed. During a quiet hour in the smoking-room he recounted some of his experiences during the rebellion of '85, which were most interesting to those who were privileged to hear them.

A gathering at "John O'Groat's house" would not be complete without the skirl of the bagpipes, and Piper Craig was there in full Highland costume and played the Scotch Reel and Highland Schottishe. Several of the Scotch guests danced in the Scotch reel.

Among the guests present were: Rev. Dr. McQueen, Archdeacon Gray, Mayor and Mrs. McDougall, Mr. and Mrs. John Walter, Mr. and Mrs. John Harrold, Mr. and Mrs. James Gibbons, Mr. and Mrs. W. B. Poucher, Mr. and Mrs. Jackson Hanby, Mr. and Mrs. John McDonald, and a host of others.

Mr. and Mrs. Groat left on the C.P.R. train on Friday morning on a honeymoon trip to Banff. The happy couple were the recipients of a large number of beautiful and costly presents, including the following: Dr. and Mrs. McKay, china bon-bon dish; Mr. and Mrs. Harrley, berry spoon; Miss A. TO THE CITIZENS OF EDMONTON:

Gentlemen—As my term of office expires shortly I again place myself before the Citizens of Edmonton for re-election. I need hardly explain my views regarding all Municipal Matters, which are already well known except to say that I am in favor of necessary expenditure with economy, and that I would follow out the programme initiated by Mayor McDougall during the past year. Should you feel disposed to accord me your vote and influence you may rest assured that my endeavour will be, as in the past, to deserve your confidence.

Yours faithfully,

## MATTERS MUNICIPAL.

The present municipal campaign is perhaps more lacking in first-rate issues than any for some years. Similarity rather than diversity characterizes the platforms of candidates, mayoral and aldermanic. Where differences occur they arise mostly over secondary questions and in methods of attaining purposes generally admitted desirable. On the main lines of civic policy there is singular agreement. Whatever may be the disadvantages of such a situation it has also a compensating consideration. That there are few issues of outstanding importance is testimony to the excellent administration of civic affairs we have had during the year. Had that administration been other than good the issues arising from it alone must have established lines of cleavage. Had it been unprogressive the problems left untouched must have offered ample ground for policy making. Had it been over-progressive the financial consequences must have engendered dissatisfaction and provided grounds for conflict. That distinctive policies are conspicuously scarce, admittedly scarce, is the best proof that the management of the year has been singularly free from error and has combined the proper initiative with shrewd caution. In this the citizens may unite in mutual congratulation.

That distinctive policies are scarce means that necessarily the issue will be decided on personal rather than public grounds. With no large questions before them the ratepayers will vote according to their personal preferences for the candidates. Under such condition it is fortunate that the candidates are of a character to bear the test of personal comparison and scrutiny. Were it otherwise the campaign could hardly be prevented descending into one of recrimination alike unprofitable and undignified. Both the mayoralty candidates are men of undoubted probity, of business experience and of long and honorable records at the council board. The other four retiring aldermen have the advantage of equally unquestionable records and of having been members of the highly efficient administration of the present year. The new men are personally worthy the places they aspire to occupy. A campaign which must be decided by personal preference largely is thus saved the danger of becoming a wholesale slang-whanging contest, which with less worthy candidates it must have become.

A statement of Mayor McDougall that we shall have to enlarge the city power plant again next year revives the old question of whether it is possible and profitable to build for the future instead of struggling merely to keep abreast of the demand as we seem to have been doing for the past few years. To do even this has in the circumstances been no small task, but the matter is a proper one for consideration whether we could not better install a plant sufficient for some years in advance. It does not follow, of course, that a large plant installed ahead of needs is always an economy. There is such a thing as going too far in advance. A large plant costs much money, and the wastage of wear and tear is necessarily larger than in a small one. On the other hand there are means of economy in the installation of a large plant over the successive installation of small ones. Which method leaves the balance on the right side of the account is in the first place a matter for investigation by the commissioners and by those charged with the operation of the plants, familiar with the details of the needs present and prospective, and with the comparative costs of the two methods of supplying them. Such investigation would be a very proper matter for early attention, before preparations for next season's work have to be begun.

The question of the city water supply is akin and offers opportunity for similar procedure. That the present intake must be abandoned sooner rather than later is admitted. The problem for solution is whether the pumping plant should be established farther up the river or the water brought down to the present plant by aqueduct or pipe line. This is a matter on which expert advice is primarily necessary. The commissioners and the officials of the department might with profit undertake an investigation and prepare estimates of the comparative costs. Without these nothing can be done intelligently, and something must be done pretty soon. On one point there should be agreement—we should have an efficient filtration system, temporary or permanent, in operation next summer.

A proposal has been made to put the police and the fire brigade under control of a special commission. There seems to be no very apparent need of such arrangement. The fire brigade is understood to be in a highly efficient condition under the present management. If so this is evidence that we had better leave the management alone. If the police force has been less satisfactorily managed the remedy for this may be found in the experience of the fire brigade. If the fire brigade is efficient the credit is in the largest measure due to the chief. If the police force has not been efficient the fault must be placed with the personnel rather than the system of its management. With the right man in charge of the force there will be efficiency. With the wrong man in actual charge there is nothing inherent in a commission to save us from the consequences. In time the force may become large enough and the problems before it numerous enough to demand the constant supervision and time of a special commissioner. At present it is not publicly apparent that that time has come. For the present the management of both these bodies might with propriety be put under the special care of the mayor of the city. The protection of life and property and the preservation of the peace are surely duties that appertain naturally to the office of the chief magistrate.

Another proposal is to place the street railway under a special commission. To this there are objections. The commission must consist either of men who know nothing about street railway management or of men who are expert and experienced street railway managers. A commission of the latter would cost more than we can pay and more than there is any necessity of paying. A commission of the former would be at this time more of a nuisance and expense than a benefit. Under present conditions best of all street railway commissions is a commission of one, composed of an experienced street railway man, called by whatever title may be thought suitable, but discharging the functions of a general manager. By whatever name he might be called his business should be to run the street railway system as the manager would run such system for a private company, answerable to the city council as the board of directors. If or when the increase of business and the multiplication of duties makes a special board of paid directors necessary a committee of the council could easily be selected, with a nominal salary to reward them for their additional services. But the essential thing is to have a competent man in actual and active charge, clothed with ample powers and freed from unnecessary interference. Such man will cost money, but the more the better so long as he earns it.

## HE ADVISES EMIGRATION.

### Lord Strathcona's Solution for Unemployed Problem.

London, Nov. 29—Speaking in this city Lord Strathcona said he firmly believed that if a considerable portion of the money which was given and rightly given to aid the unemployed here were devoted to enabling them to emigrate to Canada or to other colonies it would be good for unemployed, good for Canada or other colonies and god for the mother country. They would find homes and an abundance of employment there, but they would have to work. Canada didn't want the unemployable, but if some such scheme were carried out he was confident the men sent would not only soon find themselves comparatively independent but their success would be reflected in the mother country.

### Split in Ottawa Church.

Ottawa, Nov. 29—There is a split in the St. John Lutheran church here and although no regular meeting has asked Rev. Mr. Beer to resign a portion of the congregation is seeking to lock him out and is demanding that he vacate the parsonage. The other portion is supporting the pastor and seeking an injunction to restrain the others. The trouble arose over the alleged excessive punishment of some children in a Saturday German class, which charge, the synod committee declared far-fetched and malicious, exonerating the pator.

## YORK LOAN CO. AFFAIRS.

### Official Liquidator Says Assets Will Not be Sold to Bidders.

Toronto, Nov. 29—"By next midsummer the shareholders of the York Loan Co. will have a dividend of 20c on the dollar out of the property entrusted to the National Trust Co. for management," said R. Home Smith, the official liquidator, last night.

This statement was made in the course of an interview in which Mr. Smith discussed the alleged offer of the Assets Realization Co. of Chicago. It was said that this company offered $700,000 for the York Loan property. This, Mr. Smith says, is not true. The Chicago company offered $700,000 for the property and for about $300,000 in mortgages and sale agreements. This would bring the offer for the real estate down to $400,000.

"We are not going to let the Chicago concern come in and reap where we have sown for the benefit of the York Loan Co. shareholders," said Mr. Smith.

### Would Not Sell en Bloc.

He recounted the fact that when the liquidation of the York Loan Co. was begun the referee suggested to Mr. Smith that the property should be sold en bloc. Mr. Smith wisely declined to listen to that suggestion, because he thought the shareholders would not obtain their fair return from their investments. There were no railway facilities, no sidewalks, no improvements on the property. But though Mr. Smith refused to sell any of the land at that time, yet there were others who did sell, and this selling created a market for lots at from $10 to $12 a foot. After that prices went up as high as $25 a foot. Then large improvements were made on the property.

"Until today, after two years of management," said Mr. Smith, "we have sold over 15,000 feet, not 6,000 feet, at a minimum price of $25 a foot and some parcels at as high as $40 a foot. In the spring these prices will be raised. We have sold one-third of the property and have realized as large an amount as we would have realized on the whole property had we sold it en bloc two years ago.

### Worth a Million.

"We have dealt with this property solely from the standpoint of the advantage to the shareholders of the York Loan Co. The land that is yet left, at the present prices, is worth $1,000,000. We confidently expect to make more than that out of it. Within three years these lands will be practically all taken up. This is rather different from the statement that it will take 15 years to liquidate the company.

"It should be remembered that while there are a number of the shareholders who would like a quick clean-up, yet there are a very large number who want to get every dollar out that they can. It is the duty of the National Trust Co. to steer a middle course and to get the highest price possible.

### Have Money to Pay.

"We are prepared now, so far as cash is concerned, to pay a dividend. We have the largest possible staff at work on our books, but can't declare a dividend before next midsummer. As soon as the clerical work is done we will declare a dividend for 20c on the dollar.

"If this United States company had made a bona fide offer three years ago it would be in a different position than it is today. But now, after we have spent two years in preparing the property for sale, their proposition means the taking of a large proportion of the profits that belong to the shareholders."

## DR EATON TO BE DEMOCRAT.

### Former Toronto Pastor Will Have New Order in Gotham Church.

New York, Nov. 30.—The Herald gives prominence to the appointment of Dr. Charles A. Eaton, formerly of Cleveland, O., and Toronto Ont. to a New York church. It says:

"With the coming of the new pastor, the Rev. Dr. Charles Aubrey Eaton, to the Madison Avenue Baptist church, at East Thirty first street, a new order of things will begin. The ideal, according to the officers will be not to have an institutional church, but a democratic church, which, because of the Gospel which is preached and the social life which is provided through men's clubs, women's guilds, and other organizations, will appeal to wealthy and poor alike as a place where they will receive spiritual and moral uplift.

"This church, like many others down town, has suffered much from death and removal uptown or to the suburbs of many of its old supporters. Most of its members are in New York only a few months of the year. Because of these reasons, its official board desires it to become a people's church. Dr. Eaton has been consulted and has endorsed the plan. He explained that he would not at once make innovations, but that gradually he will try to shape things along the new order. One of the innovations, it is expected, will be free pews.

"Dr. Eaton, who has just resigned the pastorate of the Euclid Avenue Baptist church, Cleveland, Ohio, of which John D. Rockefeller is a member will begin his duties in New York January 1. His salary has been fixed at $10,000.

The report that Mr. Rockefeller brought Dr. Eaton to New York, or that he will attend the Madison Avenue church in place of the Fifth Avenue Baptist, where he is one of the chief supportrers is denied. The two men ,however, have long been close friends. Dr. Eaton''s some is some miles from Cleveland, at Lee Road, Mayfield Height, adjoining Mr. Rockefeller''s estate at Forest Hill. The clergyman's recreation hours have often been spent playing golf with the oil king.

"The new pastor, with his wife and five children, will, in all lkelihood live in the suburbs and he will have his office at the church.

(Dr. Eaton''s first charge was Bloor Street Baptist church, Toronto, Ont., which he left in 1901 for Cleveland. He visted Edmonton last sprng and was the guest of the Canadian club here.)

### Compelled to Shoot Her Father.

Pontiac, Ill., Nov. 26.—Peter Laubenheimer, of Fairbury, was today shot by his daughter, while she was endeavoring to protect herself from him. Laubenheimer has been mentally unbalanced for some time, and today attempted to do bodily injury to his daughter, when she shot him. The bullet took effect in the head, and it is thought that he cannot live. Laubenheimer is one of the wealthy residents of Fairbury.

## QUARANTINE RESTRICTIONS.

### Government Taking Every Precaution to Keep Cattle Disease Out of Canada.

Ottawa, Nov. 29—An order-in-council which was passed on Saturday provides that no vessel from any American port with cattle on board will be allowed to touch at any Canadian port; that no Canadian cattle will hereafter be exported to Europe except from Canadian ports; that no vessel clearing from a Canadian port with cattle from the United States will be permitted to take Canadian cattle from the United States on board; that no vessel which has touched any port in any of the affected States will be allowed for a period of twenty-one days to take cattle from Canada.

The government has been advised that the Canadian Pacific railway is refusing to carry American cattle through Canada via Winnipeg.

Miss Isabella McLean, of St. Eugene, died last Tuesday morning, November 24th, after a long and lingering illness. The McLean family came from the Isle of Islay, in the west of Scotland, many years ago and settled in Dakota, where the mother died. Ten years ago they came up to this country and were for several years on the Craig farm at Namao, where the father and uncle died. Latterly the other members of the family bought land across the Sturgeon, west of the Victoria trail and north of the old Hardisty place, now known as St. Eugene district. Rev. A. Forbes conducted the funeral services at the house, at the church at Namao, and at the graveyard, a mile and a half west of the church, where the remains of Miss McLean were laid beside those of her father. The deceased suffered long and uncomplainingly. She was a fine type of the West Highland woman.

General regret is expressed here over the death of Mr. McNiven, who was for some time in the employ of Mr. T. G. Montgomery here. Deceased came to this country in somewhat poor health, and for a time seemed to gain strength. Latterly, however, his old trouble came back with redoubled force. Mr. McNiven was a young man, of quiet and regular habits and was much beloved by those who knew him.

Mr. Ball, the jeweller, has got into his new store and Mr. Wisler, the tailor, is prepared to take orders in the Alberta Drug Store building. ## REVOLUTIONISTS TRIUMPH.

### Haytian Troops Routed Leaving 300 Dead and Wounded.

Port au Prince, Nov. 29.—Government troops under the command of General Celestin Cyriaque, minister of war, composed largely of young recruits, who were sent out to make the capture of the new leader of the revolution, General Antointe Simon, have met a serious defeat by the revolutionists. The engagement took place at Anse a Veau, which lies about 55 miles to the east of Jeremie, one of the disaffected ports. After severe fighting the government forces were routed and driven back to Miragoane, twenty miles distant. Miragoane is about fifty miles from Port au Prince.

A dispatch received here states that the government forces left more than 300 dead and wounded on the field. It is reported that General Celestin has taken refuge in the German consulate there.

Some of the wounded were brought to Port au Prince by the Haytian gunboat Centenaire.

President Nord Alexis, who always has shown confidence in the ability of his troops to suppress the revolutionary movement, has decided to take the offensive with three divisions of disciplined troops, which have been concentrated here.

The United States cruiser Tacoma under command of Capt. John Hood and the French training ship Duguay Trouin have arrived here, and this has gone far towards reassuring the foreign residents.

## OKLAHOMA FLOODS SERIOUS.

### Five Persons Drowned and Hundreds Are Homeless.

Guthrie, Okla., Nov. 29.—Five persons are dead as the result of two days' continual rain and the overflow of the Oklahoma and Northern Texas rivers and tributaries, while thousands are homeless and hundreds of residences are flooded. Railway traffic has been practically abandoned in central Oklahoma and a big bridge on the Missouri, Oklahoma and Gulf road between Muskogee and Wagoner was washed away a few minutes after a passenger train had crossed it this afternoon.

The river at Guthrie was one foot higher than ever known before at six o'clock tonight, and is rising twelve inches hourly.

Hundreds of persons who refused to leave their homes this afternoon, believing the river would not rise so rapidly, fired shots of distress soon after nightfall. An army of rescuers set out in boats to bring in those in danger. Many are in peril in the flooded homes. The Arkansas and other streams near Tulsa began to rise rapidly tonight. The Arkansas is rising at the rate of four inches an hour.

## INGENICA CLAIMS RICH.

### Two Miners Secure 57 Ounces in 28 Days.

Vancouver, B. C., Nov. 29.—Messrs. Stark & Stanier, owners of a group of bench claims on the Ingenica, near the mouth of McConnell Creek, have reached here with fifty-seven ounces of gold, representing their cleanup for twenty-eight days of eight hours. They had no assistance and were obliged to wheelbarrow the gravel to the river, where they washed it in a sluice box located on a little fall in the stream. They sold gold to the assay office for $17.04 per ounce. The visitors state that the creek is all right, and unfavorable reports were scattered broadcast because owners of creek claims had failed to sink to bed rock. Good values, they expect, will be encountered as soon as drifting is started. Gravel in the creek claims even near the surface will pay well.

### Two Suspects Arrested—Tell Conflicting Stories of Movements.

Calgary, Nov. 28.—Jos. Smith, alias McGuire, and George Brown, alias Dutchie Stewart, were arrested last night charged with being the men who have conducted the wholesale theft of overcoats in Calgary recently. Both men are said to have records, and Smith is said to have served time in Winnipeg and at the Manitoba penitentiary. The suspects tell conflicting stories. One claims he went to Vancouver alone three weeks ago and the other claims he went to Vancouver a week ago in company with the other. The men were in the company of a woman said to have been living with a man named McCauley, now serving time at Lethbridge or Macleod.

## CONSPIRACY NOT SHOWN.

### Verdict of Not Guilty Returned in Port Arthur Case.

Port Arthur, Nov. 26.—Not guilty was the verdict returned by the jury this afternoon in the conspiracy charge against J. W. Armstrong, Jos. Hubert and Robert Lethen. The jury was out considering its verdict for about half an hour.

Three men named with Hogarth have still to face the charges of subornation of personation, but they have been traversed to the spring assizes at the request of Crown Prosecutor Hodgins.

Justice Britton, in his charge to the jury, appeared to be somewhat inclined to the view that the accused should be acquitted. He pointed out that while one or all might have been guilty of some wrong individually, or had been indiscrete, it was necessary the evidence should show, if the verdict was to be guilty, that the accused had conspired together, which he seemed to think had not been clearly shown.

### Grieved Over Son's Fate.

Chicago, Nov. 26.—Mrs. Barbara Billik, mother of Herman Billik, convicted of poisoning the Vrzal family, and sentenced to be hanged on Dec. 11, died today at Cleveland, Ohio. It is declared that grief over the fate of her son caused her death.

## CALGARY MEDICAL MEN BECOME MUCH AROUSED

### A Conference Held With the Medical Health Officer, Dr. Macdonald, and Decision Reached on Measures to Stop Spread of Smallpox, Which Has Obtained a strong Foothold.

Calgary, Nov. 27—A meeting of the medical men of Calgary, in consultation with Dr. Macdonald, medical health officer, was held last night to discuss the prevalence of smallpox in the city and to decide on united effort for its suppression. It was acknowledged that the situation was serious, that the disease was prevalent and was spreading. The spread of the disease has been furthered by concealment. It was decided to issue a series of instructions and directions for the direction of symptoms of the disease. The following precautions as provided for in section 53 of the Public Health act, should be followed by every person with regard to smallpox: Whenever any person has reason to believe that he or she is infected with smallpox, and whenever any householder has reason to believe that any person within his household has smallpox, he shall, within twenty-four hours, give notice thereof to the medical health officer of the locality where he resides. The penalty provided for failure to comply with these regulations is a fine not to exceed $50. The same provision regarding notification and penalty applies to cases of diphtheria, scarlet fever, typhoid fever, measles and chickenpox.

### Inquest on Railway Accident

At the inquest on the body of Jos. Belwer, the C. P. R. section man killed at Cheadle the evidence showed that engine 152, in charge of Engineer McKay and Fireman Wilson, which had been used for the purpose of assisting a freight up the hill between Bassano and Cheadle, was on the return journey down the hill when it struck the handcar. The engineer saw the handcar and the three men when about three rail lengths distance away, and set the brakes, but was unable to prevent a collision. The jury returned a verdict of accidental death but added that it appeared to them that the engineer and fireman had done all they possibly could to prevent the accident.

### 100,000 Club Will Die.

With the near approach of a publicity department of the city, which will doubtless be organized in the new year, the days of the 100,000 club are numbered, and it will be crowded out, as far as the active organization is carried on at present. The 100,000 club is in existence at present in name only. Secretary Webster's time is now fully occupied by the board of trade work. The interest displayed by the members is not great enough to continue the club when the city withdraws its support to their own publicity department, as it doubtless will.

Ther was a good crowd at the Salvation Army Citadel last night to welcome Staff Captain and Mrs. Coombes and Captain Hutchinson, who for the past week have been attending the councils in Winnipeg. The meeting was of a warm and hearty character. A hearty welcome was accorded to Captain McGrath, the Territorial bandmaster, who is visiting Calgary for a few weeks to give a course of instruction to the band. The meeting was in charge of the Staff Captain, supported by Mrs. Coombes, Ensign Birch, Capt. Wiggins of the Rescue Home, Adjutant Scott of Edmonton and Capt. Miney.

Excavation for another large and handsome block was commenced yesterday on the corner of Ninth avenue and First Street West. This building will be a large four storey block, which being built by W. R. Hull, and will be used as retail stores on the ground floor, with retail stores on the ground floor, with three more floors fitted up as offices. The new structure will be built of stone, and of eloquent appearance, and will cost, when completed, over $30,000.

### Much Grain Tied Up.

There is a very severe blockade on the regular line south of here. There are 300,000 bushels of wheat stored at High River and half a million yet to market. The farmers have recourse to various methods of storing their grain. In one instance a farmer had erected a six-foot enclosure, poured his wheat in, and trusting to nature, had left the bin exposed to weather. This enclosure stored three cars, while another three cars lay out in sacks. In another instance the farmer erected a building capable of holding ten cars. This meant a great amount of extra labor, as it will be necessary to again move this grain.

### A Foothill Romance.

Living away up in the foothills northwest of Cochrane is Juliette Jacquetine Shettler, a handsome young woman about 26 years of age, who, according to the New York Telegram, is suing her alleged father, James Gordon Bennett for the right to bear his name. The suit will commence tomorrow in Paris. Suit was entered by the girl's mother six years ago, but she would not give particulars to the correspondent. Whatever is done in the lawsuit will be by proxy. Speaking of Bennett and her early life, Miss Shettler stated that she was born in Paris, and educated in Surrey, England. She said she knew Bennett and that while he might be a great man, he certainly is no a good man. She positively refused to make any statement regarding her parentage, nor would she speak of her mother, except to state that the suit was entered by her, using the daughter's name, some six years ago in Canada.

### Hamilton Police Castigated.

Hamilton, Nov. 29.—Rev. Dr. Whiting, pastor of the Centenary church, tonight scored the attitude of the police commissioners, who, he declared, tolerated disorderly houses.

## ENQUIRY OPENS AT HALIFAX.

### Justice Casseli's Investigation Into Marine Department Now in Halifax.

Halifax, Nov. 29.—The enquiry into the affairs of the marine department at Halifax began on Saturday, and it was a strong enough attraction to crowd the courthouse to such an extent that the officials had a hard time keeping a passage clear. There was a big array of witnesses, but they seem to have been taken by surprise in regard to their books. Few had those in court and Lawyer Watson made some new records for speed in the short time which he gave to have a complete set of ponderous books in the court house. The work on Saturday was nearly all preliminary. The court was getting matters into trim for the inquiry which will commence on Monday morning.

The general impression is that Halifax will not be different from the other centers of the marine department's work, and that before the week is over there will be a fair share of sensations for the people to talk about. So far as the evidence on Saturday went, however, there was nothing to show that the developments are coming or to point to their character. Lawyer Watson showed that he had been pretty well posted regarding conditions at Halifax. He apparently knew a good deal about the books used by the agent. For instance, without his telling them of it, he was familiar with the fact that there are watchmen in the dock yards armed with keys, and he wants to see these men brought into court.

When A. Melvin, retail hardware, went to the stand and testified that the marine department was "one of the principal customers," Mr. Watson would not let that go, but made him say that "the marine department was his principal customer," and Watson sarcastically replied: "You are a sort of an attachee of the marine department."

Of forty odd witnesses who have been subpoenaed, about ten or twelve were called to the stand on Saturday and ordered to have their books in court almost immediately. A statement was made by the court that in Halifax last year the agency's expenditures had been $668,000, of which nearly half was for hardware, lumber and groceries bought without tender.

## ROOSEVELT ON U. S. NAVY.

### President Makes Startlingly Frank Comment on Armaments.

New York, Nov. 27.—There are only a few military rifles in the whole of this country, and if an army of 200,000 men could land the Americans would have nothing but pitchforks and shotguns to fight them with. So President Roosevelt has told Henry Reuterdahl, according to an article by the latter in the forthcoming number of Pearsons Magazine. "The president's view on the navy, as told to Reuterdahl," is the title of the article.

Roosevelt, according to Reuterdahl, is the first president who has taken the navy seriously. He believes there should be more public interest in the actual state of the navy as a fighting force. He wants a fleet of ships in each ocean and with that attained and the Panama canal completed, he believes the country can look forward to years of peace and prosperity.

The fleet is still deficient in auxiliaries, in submarines, destroyers and colliers. "He is impatient," says Reuterdahl, "of the silly talk about freemen who fight for the country, and thinks that it will not do for us to bare our chests and hark back to the civil war or the war of 1812, but that modern sea fighting is a professional man's job, a scientific development of many parts."

## NO CONSISTORY IN DECEMBER

### Pope Has Abandoned Idea of Holding It—Fisher Received in Audience.

Rome, Nov. 29.—The Pope has abandoned the idea of holding the consistory in December. This decision is reached partly because of the difficulty of choosing the new French cardinals, and partly because the pontiff desires to avert the termination of the discussion of the education bill in England before he creates a British cardinal. In the meantime the Pope will profit by the presence in the dome of Archbishop Glennon, of St. Louis, and the forthcoming visit of Archbishop Ireland to study the matter of Anglican episcopacy with the view of creating another American cardinal.

Bishop Ward, of Valleyfield, Canada, and Sidney Fisher, Canadian Minister of Agriculture were presented to the Pope on Saturday. Fisher went first to see the Pope after having asked an audience with King Victor Emmanuel, and this fact has created considerable comment.

# WITH THE FARMERS

## WHAT MARKET BUILDING MEANS

A market building in Edmonton is the urgent need of the farmers of the Edmonton district. It is all very well to keep drumming quality into the farmer but if he can not sell his goods on an open market what incentive is there for him to produce the best.

"Take the poultry business for instance," said a farmer to a Bulletin representative on Saturday. "I bring in a lot of good spring chickens and turkeys as you would want to see and what do I run up against. There is no market building where I can have a stand to offer my birds to the consumers. The consequence is that I take them to the wholesale butchers and they offer me 9 cents per pound for poultry that they retail at 20 cents. They tell me that I can either take what they offer or take my goods home. I take them home and the dealer gets poultry in from Ontario or from the local poultry raisers who will take the price offered for it, and sells it at 20 cents to 22 cents per lb. Now if there were a suitable market building where people would come to get their farm produce instead of going to the retail store, both the farmer and the consumer would benefit. Without a market building it is a hold up game for both the farmer and the consumer."

The scene on the market square on Saturday would impress the most disinterested individual with the necessity of better market accommodation. Along two sides of the square wagons were lined and a motley assortment of potatoes, dressed meats and dairy products, confronted every one walking on the streets. How much better it would be if this produce were on sale in a market building, where it would not be open to the elements and where the vendors would not have to stand on the side of the street for several hours. Instead of an intermittent market such as there is now, a regular market comparatively independent of inclement weather would follow the erection of a market building.

## SATURDAY'S GRAIN MARKETS.

Winnipeg,.. Nov. 28.—Saturday's market was a quiet one, with not much demand excepting spot cash wheat, for which premiums of ¼ to ⅜ were paid. While demand for ordinary cash was light, Liverpool was steady, but there was no active export demand. Indications are now that when navigation closes there will be some drop in the market for a time at least, and quiet demand. Just how much the drop willi be or how long quietness will continue is keeping wise ones guessing at present. Winnipeg November was down ⅜. December ⅜ and May ⅜. American markets were pretty steady all morning, although trading was light. Chicago December declined ⅛. May and July were unchanged. In Minneapolis, December gained ⅛. May was unchanged and July ⅛ higher. Receipts at Winnipeg were 545 cars for Friday and 500 in sight Saturday morning, while Minneapolis had only 241 cars and Duluth 342. Duluth flax was unchanged.

Winnipeg cash wheat—No. 1 Northern, 1.01⅞; No. 2 Northern, 98⅞; No. 3 Northern, 95⅞; No. 4, 93; No. 5, 90. Barley—No. 4, 48½.

American options: Chicago—December 1.03⅞, 1.03⅞; May 1.08⅞, 1.08⅞; July 1.01⅞, 1.01⅞. Minneapolis—December 1.04¾, 1.04⅞; May 1.09⅛, 1.09¼; July 1.09⅛, 1.09⅜.

## TO-DAY'S GRAIN MARKETS.

Winnipeg, Nov. 30.—Liverpool ⅜ to ½ higher, but continental cables were lower. World's shipments were moderate at 7,900,000 bushels for last week, which is under requirements and compares with 9,300,000 bushels a year ago. The American visible increase nearly 3,000,000 bushels for the week and had a depressing influence on what otherwise would have been a buoyant market. United States markets opened around ⅛c higher, advanced some and then eased off, but closed ⅛ to ⅜ higher than Saturday. Our Winnipeg market was steady and stubborn for futures, but easier on cash wheat, owing to the lessened demand on account of approaching close of lake navigation. Prices on futures are ⅛ to ⅜ higher, but on cash wheat unchanged on lower grades to ½ lower on No. 1 Northern.

To-day's Winnipeg prices are: No. 1 Northern, 1.00½; No. 2 Northern, 97½; No. 3 Northern, 95; No. 4 wheat, 93; No. 5, 90; No. 6, 84½; feed, 75; Alberta 1 red winter, 1.00. Futures—closed December 97¾, May 1.03, July 1.03⅞. Oats, barley and flax have no cash buyers in the market today. December oats are 36⅛ and May 40⅝ bid; December flax is 1.20 and May 1.31, both bid.

## OLD COUNTRY LIVE STOCK.

Winnipeg, Man., Nov. 30.—Edward Watson and Ritchie, of Glasgow, today report 312 cattle offered. Trade sharp and especially for top quality. Top quality 13 to 13¼, secondary and middling 11 to 11½, bulls prime 10 to 10¼, inferior 9 to 9½.

John Rogers & Co.'s Liverpool cable today states steers from 11 to 12½, Canadians 10½ to 11½, ranchers 9¾ to 10¾, cows and heifers 9¾ to 10¾, bulls 8¾ to 9¾; trade very slow.

## Salvation Army Praise

"I feel it my duty to testify to the benefit I have received from the use of Psychine. While travelling in New Ontario conducting special meetings I contracted a very bad cold, which gradually developed into Bronchitis of the worst form. I was advised to try Psychine, which I did, and after using but a few bottles I was completely restored to health. I recommend this wonderful remedy to sufferers from Bronchitis and other troubles."

Later: "I wish to add that my voice, since using Psychine, is stronger and has much more carrying power than it had before I had bronchitis, and the vocal chords do not tire with speaking."

P. TILLER, Capt. Salv'n. Army, Ann St., Toronto, Aug. 13, 1907.

Throat, lung and stomach troubles cured by Psychine; also incipient consumption. All druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

### HAMILTON TIGERS WIN CHAMPIONSHIP.

Toronto, Nov. 29.—The Hamilton Tigers won the rugby championship of Canada at Rosedale, on Saturday, defeating the Toronto University team by a score of 21 to 17 before 7,500 people, the largest crowd that ever witnessed a rugby final here. The collegians were out-weighed and seemingly out-classed in the early stages of the game, but finished strong. 1,500 students rooted vigorously for the college team and the Hamilton contingent was a thousand strong. The weather was ideal, save for a heavy westerly wond. The game was clean though hard. The only serious injury was to Ramsay, Varsity's star outside wing, who was stunned in the first few minutes and was unable to continue. Lawson, Varsity's two hundred pound full back, played spectacularly, scoring two touch downs. The scoring was: First quarter—Hamilton 6, Varsity 4; Second—Hamilton 13, Varsity 5; Third—Hamilton 0, Varsity 2; Fourth—Hamilton 2, Varsity 6.

Hamilton, Nov. 29.—The Dominion rugby champions were given a great reception on their arrival late tonight, they were met by bands and a great crowd formed a procession which marched around the city.

### WHOLE TEAM DESERVES CREDIT.

Boston, Nov. 29—Ernest F. Verweibe, the star Harvard full back, who a few days ago received an autograph letter from President Roosevelt, expressing special gratitude for the winning of the Yale-Harvard rugby game replied yesterday. His letter reads:—

"My Dear Mr. Roosevelt—I received your kind and appreciative letter of the 24th. I assure you that it was with the greatest joy and gratitude that I read your sentiments. I agree with you that Kennard should be given much credit, but also think that every other member of the team deserves and ought to receive just as much praise as I. If, as you say, it was due to my work that Kennard was enabled to kick his goal, it was in turn due to the other fellows that I could accomplish what I did. Again thanking you for your encouraging words, permit me to remain sincerely and gratefully yours.—Ernest F. Verweibe."

### JUNIOR RUGBY CHAMPIONSHIP.

Lindsay, Nov. 29.—Lindsay won the junior championship in the Ontario Rugby Football Union, beating the Capitals of Toronto by a score of 5 to 3 in the final game here on Saturday.

## TH ETURF.

### RACING KILLED IN NEW ORLEANS

New Orleans, Nov. 29—There will be no racing in New Orleans this winter. The final death blow has been struck and all those who had hopes for the sport have abandoned any plans with the sole exception of a few men interested in the half mile track. They announce that they will again attempt to race, but as there are few horses here and virtually no interest in them, failure is well in sight. The Louisiana Driving club, owners of the half mile track across the little bayou from the city park course, advertised a ninety-day meeting and opened on Thursday. On Saturday they announced the abandonment of their plans and confessed to the loss of about $10,000 in purses and various expenses. The police would not permit any but individual betting and the attendance was nil. Some 200 to 400 spectators turned out on the opening day but on Saturday only 150 or so went to the course, hence the abandonment of the meeting.

### ARMY DEFEATS NAVY.

Philadelphia, Nov. 29—The Army defeated the Navy at a football match here on Saturday in a thrilling game. The score was as follows, Army 6, Navy 4.

## THE MAT.

### WHITE AT STONY PLAIN.

Things were stirring in sporting circles in Stony Plain last week. Jim White, the Minneapolis wrestler, went out there on Friday last to meet some of the local mat artists. Some good exhibitions were put up and the sports were all given a good show for their money. White agreed to threw two railroad men, Andrewson and Paul Zimkey, the first in 10 minutes and the other man three times in one hour. He threw Andrewson in 4 1-2 minutes. He won the firt fall from Zimkey in 10 minutes, the second in 15 minutes and the third in 17 minutes.

On Saturday morning before White left Stony Plain he ran up against another proposition that created quite a stir in the town. An unknown man stepped up to him in the hotel and without warning clinched him and they both went to the floor. White then bet $50 that he could throw the stranger three times in 30 minutes and his money was promptly covered. White threw his opponent twice in the half hour but could not make the third fall. It subsequently became known that the stranger was a former welterweight champion from Duluth, Minn.

## THE RING.

### MANITOBA MAN WINS.

Selkirk, Man., Nov. 29—Last night in the fifth round of what was advertised as a ten-round boxing contest, Harry Cole, champion featherweight of North Dakota, was knocked down and out by young O'Brien of Winnipeg, champion of Manitoba featherweights. Cole was outclassed and had the worst of the argument. Boxing contests are not favorably looked upon here and the authorities will take steps immediately to prevent a recurrence of last night's affair.

## THE TRACK.

### LONGBOAT TO MEET DORANDO.

Toronto, Nov. 29—Longboat has not raced since the event at Fall River, owing to indisposition. He has two engagements ,one next Saturday afternoon and one at night in Philadelphia. He then rests and trains until December 15, when he goes against Dorando Pietri at Madison Square at the Marathon distance. Manager Flanagan stated that contract between the Indian and Italian was signed on Saturday.

### FITZ MADE GOOD TIME.

J. S. Fitzgerald, Edmonton's member of the Canadian Olympic team, and one and five mile champion of the province of Alberta, went down to the track on the Exhibition Grounds on Saturday afternoon to see what he could do. He wished to find out whether his loss of the western Canada five mile race at Winnipeg recently was due to his being out of condition, or whether it was merely an unfortunate combination of circumstances. He did five miles on a rather hard track in 27 minutes flat, which satisfied him that he was still able to do some good work. Several local sports went down to see the trial and there were several watches on him. Fitzgerald states that he will probably not take part in the Calgary Herald annual road race on Christmas Day, but will rest up until next spring.

### RUNNERS HEAVILY BACKED.

New York, November 29.—Tom Longboat stopped off in New York today en route for Philadelphia, to arrange a race with Dorando. Longboat has backing for $5,000, and it is expected that the match will be arranged.

W. R. Foales offers to back Lawrence Neer against the world's best runner at 25 miles for any sum over ten thousand dollars. He suggests an internationali race between Hayes, Dorando, Longboat, Shrubb and Neer for $50,000.

## HOCKEY.

### LLOYDMINSTER HOCKEY CLUB.

One of the first hockey clubs to be organized this year along the C.N.R. was the Lloydminster club. The annual meeting of this hockey organiaztion was held last week and the following were elected officers for the ensuing year: Honorary president, John F. McNamara; president, E. L. Burdett; vice-president, W. H. Holland; secretary-treasurer ,W. B. Sanple; team manager, Sergeant McCarthy. The executive committee will be composed of the president, manager and captain.

The organiaztion of the Lloydminster Hockey Club is the first step toward the formation of a C.N.R. division of the Alberta Amateur Hockey League. It is probable that the other clubs along that line will organize at once now that the cold weather is here and plans laid for the season's sport.

### AFTER MORE HOCKEY PLAYERS.

All those who intend going east to Montreal with the Edmonton hockey team in December should hand in their names at once to the secretary, E. E. Chauvin, so that arrangements can be made for as good a rate as possible. The team will leave here for the east about December 15th and will return some time in January. All subscriptions in aid of this plan of the Edmonton Hockey Club of putting a Stanley cup team on the ice should be paid in at once to J. C. McDougall, the treasurer.

The team is doing some good work every day now on the City Rink, where they practice between 11 and 12. Old hockey men, who have seen them work out, say the forward line is certainly fast. With another month's steady practice the team should be in pretty good shape by the end of December for their games with the Montreal Wanderers.

The club are still negotiating with Fred Taylor, of Ottawa, and with Si Griffiths and Petrie. Today a despatch was received from Ottawa to the effect that Taylor would play this year with the Ottawa team, so the chances of the locals getting him are rather slim. Si Griffiths is at present out at the Pacific coast. He is a good cover and played with the Kenora team two years ago when they won the Stanley cup. Griffiths did not play last year and might not be in very good condition for hockey now. The local club have made him a good offer provided he makes good, and expect a reply shortly. Advances have also been made to Petrie, but the prospects of getting him are not very bright.

### FRED TAYLOR JOINS OTTAWA.

Ottawa, Nov. 30—Fred Taylor, who was expelled from the Pittsburg hockey league, has arrived here. He will play with Ottawa this winter.

### E. C. H. L. SCHEDULE.

Montreal, Nov. 29.—The Eastern Canada Hockey association delegates completed the work of organization for the season on Saturday evening in a short session when the schedule for the season was finally adopted.

### MONTREAL OUT OF HOCKEY.

Montreal, Nov. 29.—The Montreal Hockey Club resigned yesterday from the amateur hockey league on account of the definition of what an amateur means. Montreal refused to accept the ruling that they could not play against professionals and so withdrew. Montreal will probably be out of hockey for the season.

### KID McCLAIR IN ALASKA.

Kid McClair, the left-hand twirler who was with the Edmonton professional baseball team in 1906, has gone away to the far north. Last summer he played with the Skagway team, and in the latter part of the season went north to Fairbanks, Alaska. He wrote from there to Deacon White and stated that he was learning to play hockey there this winter.

### SHRUBB WILL RACE LONGBOAT.

Toronto, Nov. 29.—Alfred Shrubb, the English champion professional runner, says he is willing to run Longboat 10, 15 and 20 miles n the order named but Tom Flanagan, the Indian's manager, wants the order reversed. Shrubb wants the first race in Buffalo, the second in Montreal and the third in Toronto.

# AMUSEMENTS

### OPEN IN "CAMILLE."

The Allen Stock Company return to Edmonton and will appear in the Dominion Theatre tonight. Mr. Allen has secured the lease of the Dominion theatre for ten weeks and Edmontonians can safely expect to see something really "good" during their stay here. Their opening bill is to be that famous starring vehicle of Sarah Bernhardt's namely "Camille" a story written by Alexander Dumas, the great French writer. In "Camille" Miss Verna Felton made a decided hit in Portland, Ore., Vancouver and Calgary. The criticisms that have appeared state she is without doubt one of the best of emotional actresses.

### "DUBLIN DAN."

One of the largest audiences that has assembled at the Edmonton Opera House under the present management filled this popular playhouse on Saturday night to witness the Tom Marks company in "Dublin Dan," a rollicking four act comedy drama. Tom Marks as Dan from Dublin, kept the large audience in continual good humor, and was the real thing from the "old sod." The other numbers sustained their reputation as good thespians. The $30 prize was won by a Mr. Thompson. Tonight the favorite comedy drama "Jerry the Tramp" will be presented when Tom Marks will play his favorite role of Jerry. This is a play that never fails to please and should draw a large house. A change of program each evening during the week and a Saturday matinee at 2.30. A big amateur contest is promised for Saturday night, $5 in gold will be the prize.

**Weak Women**

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local. Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

**Strength**
COMES
**From Food**
But it must be well digested.

The power to think well, work well, sleep well, and enjoy life depends mainly upon the ability of your digestive organs to extract strength and nourishment from food. When digestion fails, as in dyspepsia and indigestion, the body is starved, no matter how much food is eaten. It also becomes poisoned. Food remaining in the stomach ferments, producing poisonous gases, which, being absorbed into the blood, shatter the nerves, dull the brain, create disease, and give rise to headaches, languor, loss of appetite, palpitation, flatulence, and other disorders of the blood and nerves.

When the stomach, liver and kidneys fail to perform their functions perfectly, there is no remedy that will so soon restore them to health and vigour as Mother Seigel's Syrup. As a digestive tonic and stomachic remedy it has no equal. This is the testimony of thousands.

Mrs. Peter Brennan, Peterville, P.E.I., writing on August 16th., 1908, says :—

Our little daughter, Annie May, suffered from stomach malady and headaches for nearly three years. We tried numerous remedies but nothing seemed to do her any good until we give her a fair trial of Mother Seigel's Syrup. She has now taken the contents of two bottles and to-day she is in perfect health.

Smith, of Edmonton, brought an action against the bank to secure the books of J. J. Libby, who conducted a business at Fort Saskatchewan. His lordship ruled that S. H. Smith, as the official assignee, was entitled to the possession of the books and gave judgment that the defendant release them.

Francois Leduc, a half breed, pleaded guilty at a preliminary hearing, of breaking into the store of Hyslop & Inglis at Athabasca Landing, and at the same time, implicated Wm. Kerr in the offence. Kerr appeared before Judge Taylor in the district court on Saturday, but as there was no corroborative evidence to substantiate the charge made by Leduc, the accused man was released. Leduc is serving a six months' term at Fort Saskatchewan.

On Wednesday, December 2nd, at 8 p.m., at the Separate School Hall Third street, two delightfully amusing comedy sketches will be produced at the concert given by the young ladies of the Immaculate Conception church assisted by the members of the choir. Of these humorous dramas, one is an old favorite the "Cox and Box." The different roles of the play are taken by Messrs. Dunn and Malboit and Miss J. Girard. "A Prior Claim," the other amusing sketch consists of three roles for girls and while not so well known as "Cox and Box" is equally funny. Two of the roles constitute a pleasing satire upon the mannish, athletic young woman and a demure manhunting type, both of whom are finally worsted in the end by the well-bred womanly Miss Beresford. The roles are taken by the Misses Noonan, Girard and St. John. A number of excellent musical selections will be rendered by individuals of the chair. A recitation will be given by Mr. Dunn.

It is understood, however, that they have been unable to secure any possible evidence to connect Oliver with the death of the old man. A large number of witnesses have been summoned in the case. The crown prosecutor, E. B. Cogswell, will conduct the case for the crown and H. H. Robertson will act for the prisoner.

## HORSES DASH OVER HOIST.

A thrilling runaway took place on Saturday evening shortly after six o'clock on First street. The team, which was owned by a private expressman on First street, took fright near the immigration hall and dashed down the street across Jasper avenue and to the inclined railway at the hill. When within a few yards of the hoist the affrighted animals slackened but not sufficienty to prevent their going over headlong down the slope. Sliding from the top to within 20 feet of the bottom, the wagon, which was on top of them, caught and prevented their further progress. Jos. Hostyn and a number of others ran up one of the cars of the hoist and the horses were taken on board. It was found that they had marvellously escaped serious injury, having only a few cuts about the head.

## COUNCIL COMMITTEE TONIGHT.

There will be the regular meeting of the city council committee this evening, but there is little business for consideration, practically the only important matter to come up being the passing of the bi-monthly accounts. There will likely be an early adjournment to allow some of the board to attend the St. Andrew's supper.

Chief Davidson has written the city commissioners suggesting that red sixteen candle power electric lamps be placed on all the city fire alarm boxes to make them more easily found at night. The cost will be $5 each, or about $250 for the fifty boxes.

J. K. McDonald, solicitor for a company composed of W. R. Hartley and others, is renewing his application for a site for a vinegar, pickle and candy factory near the G.T.P. or C.N.R. right of way. He suggests lots 20, 21, 22 or 5 and 6 in blk. 14 R. L. 12, between Namayo and Kinistino avenues, and near the C.N.R. The company would like a ten year lease at a rental of six per cent on a $2,000 valuation, with a readjustment at the end of five years.

Chief Davidson has also written that he is not in favor of a fire alarm extension to the J. G. Griffin & Co. packing plant at the present time, as it would make a large part of the city system useless at the present time if it got out of order. He suggests a private line between the packing plant and No. 3 fire hall, to cost about $110.

## OFFENDERS GET HEAVY SENTENCES.

Before Magistrates Wilson and Weeks at the police court this morning a young man named Robert Arrowsmith, who gave his age as 22 years but who looked much younger, pleaded guilty of what he said was his first criminal act, of stealing a fur-lined coat valued at $100 and owned by Leslie Fife, from Shaffner's rink on Wednesday night. He was sentenced to six months at Fort Saskatchewan, the magistrates remarking that a great many cases of petty theft had been reported to the police recently and they were determined to stop it if possible.

Arrowsmith said that he was a native of Swainby, Yorkshire, England, and had been sent to Canada in August, 1907, by his brothers. Magistrate Wilson, who is himself a Yorkshire man, cross-examined the prisoner sharply on the location of his home, but he answered every question without hesitation. He had worked at Winnipeg a year as cook for a street car conductor and came to Edmonton about two weeks ago, and had since been staying at the Immigration Hall. He had gone to the employment agencies endeavoring to get work with some farmer, but could not secure any. Then he strayed into the City rink on Wednesday evening and picked up the fur coat, which he saw with a number of others in the dressing room. He was given a severe lecture by the magistrates, and as there appeared no probability that he could get work for the winter and he had no money, he was given the sentence as above stated.

A. G. Ellwood, a contractor for brushing on the right of way west of the city, came into the police station Saturday evening to explain how he had paid a partner, who claimed that he was defrauded. As he sat in the police office the liquor he had previously been drinking overcame him, and he was locked up and a charge of drunkenness placed on the books. This morning he was fined $6. The fellow contractor also appeared to charge him with decamping with his share of the money, but after some remonstration and repeated statements that he had already paid, he handed over $50 and left $18 with the police for the two laborers that are now walking in from Stony Plains. He will likely pull out of town at once, as he had on his person when arrested a ticket for Smiths Falls, Ont.

A Galician named Mike Maksquick, living in Norwood, appeared before Magistrates Weeks and Wilson and pleaded guilty to four charges, vagrancy, refusing to provide for his wife, assaulting her with a stick and destroying her clothes by cutting them up with an axe. He was given six months at Fort Saskatchewan with hard labor, and an order was made that the $16 found in his possession be paid over to his wife.

## DEATH OF ALMON MUNSON.

The death occurred at his residence, 1,944 Namayo avenue, last night of Mr. Almon Munson, in the 68th year of his age. He had been ill for the past three weeks with an abcess of the lung, which was the immediate cause of his death. The funeral takes place on Tuesday afternoon at two o'clock from the family residence to the Edmonton cemetery. Rev. A. J. Law, pastor of Norwood Methodist Church, will conduct the funeral service.

The latee Mr. Munson came to Edmonton five years ago with his family from Caro, Michigan. His early home was in Woodstock, Ontario. He was a prominent Oddfellow, but had never been transferred to the local lodges of that order. Besides his wife, he leaves a family of three sons and one daughter. The sons are John and Oliver, farmers at Onoway, and S. F. Munson, of the real estate firm of Protheroe & Munson, of this city. His daughter, Miss Harriet Munson, resides in Duluth.

## TO HAVE FIELD SECRETARY.

At a meeting of the central committee of the Alberta Sunday school association held in Calgary it was decided to extend an invitation to a well known and efficient eastern man to become field secretary for the province. Hitherto one secretary has had to cover the three provinces of Saskatchewan, Alberta and British Columbia. This year there has been a simultaneous movement by these provinces towards securing individual secretaries. Mr. Stuart Muirhead, who has been in charge of the three provinces, has been engaged by the Saskatchewan association.

Mr. G. S. Dingle has been appointed chairman of the committee, and a seretary will be appointed at the next meeting. Mr. Dingle has had a number of years' experience in the work of Sunday school associations, having been treasurer for four years of the Manitoba association, and working in other positions. He is determined that the work in Alberta shall be pushed with vigor. Monthly meetings of the committee will be held, the date decided on being the first Thursday.

The permanent secretary will begin his duties in May that being the time when the engagement with Mr. Muirhead terminates. The committee will endeavor to complet, during December and January, the organization of the province, so as to have the field in the best possible shape for aggressive work when the new secretary begins his duties.

## 30,000 ATTEND FUNERAL.

### Remarkable Tribute to Late Father O'Reilly, Miner's Friend.

Shenandoah, Pa., Nov. 29—A most remarkable tribute to a priest was paid yesterday at the funeral of Rev. N. F. O'Reilly, rector of the Roman Catholic church of the Annunciation in this place for forty years. Twenty-five collieries employing more than 16,000 men and boys in the Shenandoah and Mahanoy valley, were shut down to enable the workers to pay their respects to the dead priest. The public schools here, at Mahanoy city and other surrounding communities, were closed and all business in Shenandoah was suspended.

Fully thirty thousand persons paid tribute to his memory. Father O'Reilly was one of the best known and popular priests in the diocese. During the Molly McGuire crusade and in numerous coal strikes he wielded a great influence in behalf of peace, law and order.

## DEFIED THE OFFICERS.

### Authorities Defied to Take Child to Contagious Hospital.

Kingston, Nov. 29.—As the result of threatening the health authorities if they dared enter his brother's' house to take a child to the contagious diseases hospital, a King street east resident named McCormick was arrested.

There was quite a time at the house in question. The father dared the authorities to enter his house and remove his child.

The police would not use force, as they were instructed by the chief not to do so. A crowd of 500 people gathered and trouble seemed imminent.

Mayor Ross and Police Magistrate Farrell were summoned, and the father yielded to their advice to offer no resistance to the health officials.

The question at issue was as to whether the health authorities have the right to compel a person with a contagious disease to be removed to an isolation hospital. It seems that they can do so if they think it advisable. In the Police Court the accused was fined $10 and costs.
